Laykold®
OFFICIAL SURFACE OF THE US OPEN

Inventing & reinventing hardcourts since 1926

From pioneering coated hard courts in the 1920s, Laykold has been shaping the game for more than 100 years. Its surfaces have delivered Grand Slam-quality performance at the US Open and ushered in a new era of pickleball courts for the New York City Open.

Innovating alongside the game for almost a century, advanced Laykold chemistry has driven greater pace precision and optimal force reduction. It has also delivered the world's greenest court systems - raising performance for the court, for players, a nd for the planet.

Chemistry vs paint

Do you know what you're paying for?

Laykold®
OFFICIAL SURFACE OF THE US OPEN

Laykold is the leading global court brand offering the widest range of court surfacing systems. Powered by scientific R&D, Laykold is more than paint. By choosing Laykold you benefit from:

GRAND SLAM QUALITY

All Laykold courts feature performance topcoats chosen by the US Open, Indian Wells and Miami Open.

LARGEST INSTALLATION NETWORK

The only surface manufactured in three continents, Laykold has the largest installation network, combining global expertise with the best local installation knowledge.

UP TO 5 YEAR WARRANTIES

Laykold is the only court surface made with ISO 9001 certifications in Australia. Our product and manufacturing excellence allow us to offer market-leading manufacturers' warranties.

10X GREATER CONSISTENCY

Laykold courts are 10x more consistent than the industry standard.

PACE PRECISION

Because of the proprietary blend of sand in our courts, we can dial in court pace precision to 0.5 of a point giving players the speed and consistency they need to perform.

FORCE REDUCTION

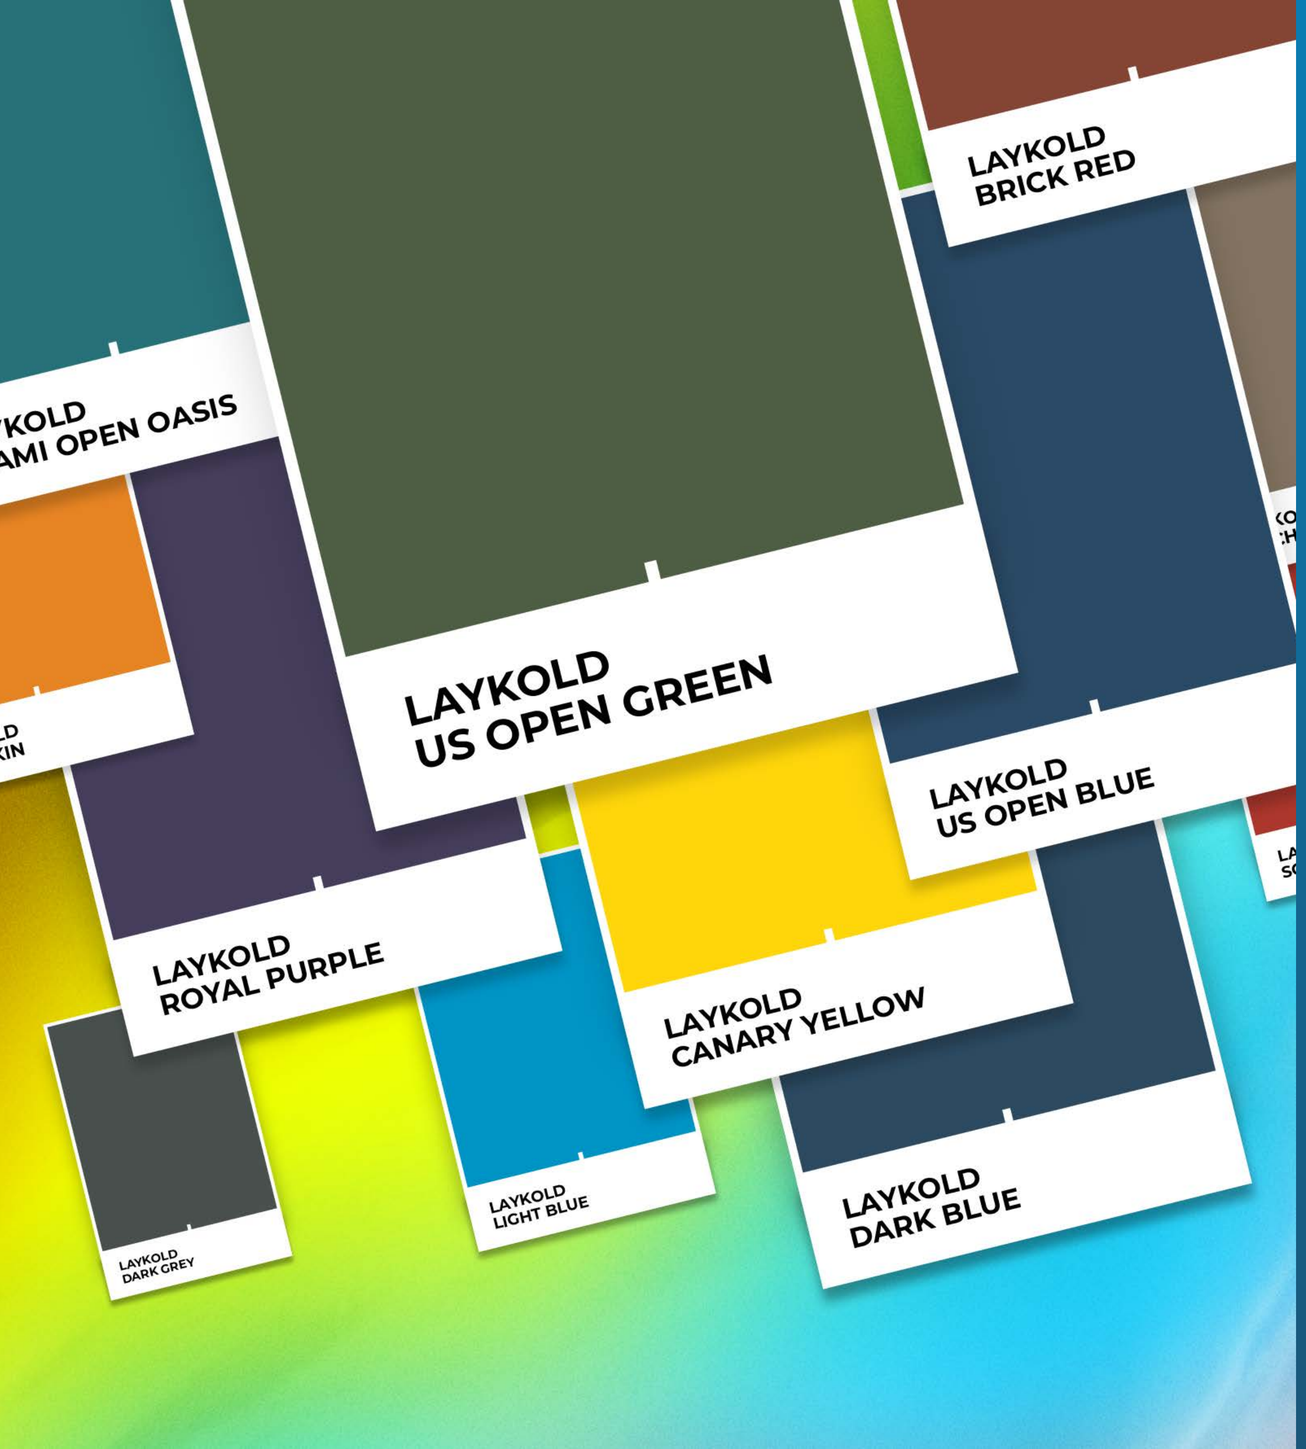

The only force reduction courts to hit the sweetspot for greater player welfare and lasting performance.

THE MOST SUSTAINABLE COURTS

The only courts made with up to 22% recycled paint sourced from Paintback, saving 100 tonnes of paint from landfill and waterways annually.

THE BIGGEST CHOICE OF COLORS THAT LAST

Our formulas have been adapted to the harsh Australian and Asian climates to optimize UV stability. This allows us to offer market-leading warranties for color fading and UV breakdown.

Laykold®
OFFICIAL SURFACE OF THE
US OPEN

No one has more colors

From the sizzling Laykold Oasis and Biscayne Blue of the Miami Open to the iconic hues of the US Open, Laykold has the biggest range of tournament, standard and tailored colors in the game. Or make it your own with custom colours to suit your venue, subject to lead times.

With so many options to choose from design your court, your way using the Laykold color selector.

Design your court, your way

Laykold® x paintback®

Laykold
OFFICIAL SURFACE OF THE US OPEN

From your shed to the centre court.

Paintback helps Australians responsibly dispose of unwanted paint by diverting it from landfill and waterways. In a world first, Laykold, in partnership with Paintback will recycle unwanted paint into courts.

4 standard Laykold pickleball courts

save 124 x 1L cans

of paint from landfill.

Australian-made Laykold courts contain up to

22% recycled paint.

Laykold will recycle

100 tonnes

(76,923 x 1L cans) of paint per year.

“We’ve worked tirelessly with APT’s R&D team to perfect the formula and can now deliver the quality and volume of recycled paint required to supply courts and turfs to clubs and communities across Australia.”

Laykold®
ADVANTAGE 3-Layer

The Classic Hard court for Pickleball

The Laykold Advantage system is a traditional 3-layer acrylic hardcourt trusted by elite tournaments worldwide. Featuring factory-textured colour coatings and a long-lasting wear layer, it offers exceptional traction, predictable bounce and competitive play.

Key Features

- Engineered for demanding sports traffic
- Delivers precise and consistent pace
- Excellent UV stability for outdoor conditions
- Includes US Open–quality topcoats
- Low-maintenance, long-life surface
- Includes up to 22% recycled household paint
- Made in Australia

Ideal For

- Clubs & councils
- Schools
- Multi-court recreational facilities
- Dedicated pickleball centres
- Residential properties

Laykold®
ADVANTAGE LM5

Premium Cushioning for Player Comfort

The Laykold LM5 system integrates a prefabricated 4mm shock-absorbing pad that enhances player comfort with superior force reduction, reduced fatigue and a smoother feel underfoot. It is ideal for indoor venues.

Key Features

- **14% force reduction** for improved player welfare
- Multi-layer cushioned comfort
- Reduces impact on joints and soft tissue
- Delivers consistent bounce and uniformity
- Includes US Open-quality topcoats
- Low-maintenance, long-life surface
- Made in Australia

Ideal For

- Indoor recreation centres
- Recreation centres

Laykold®
ADVANTAGE ET

For Converting Synthetic Grass Courts

Designed specifically for surface conversion, the Laykold Advantage ET system transforms synthetic grass courts into acrylic hardcourts. It allows clubs to move seamlessly into pickleball or tennis while retaining their existing base - saving time and cost.

Key Features

- Asphalt replacement layer with **21% shock absorption**
- Designed for synthetic grass court conversions
- Provides a stable, cushioned, high-performance surface
- Maintains excellent traction, pace and durability
- Includes US Open-quality topcoats
- Low-maintenance, long-life surface
- Made in Australia

Ideal For

- Clubs upgrading old synthetic grass tennis courts
- Facilities creating multi-use pickleball / tennis complexes
